

NEOLITH[®]

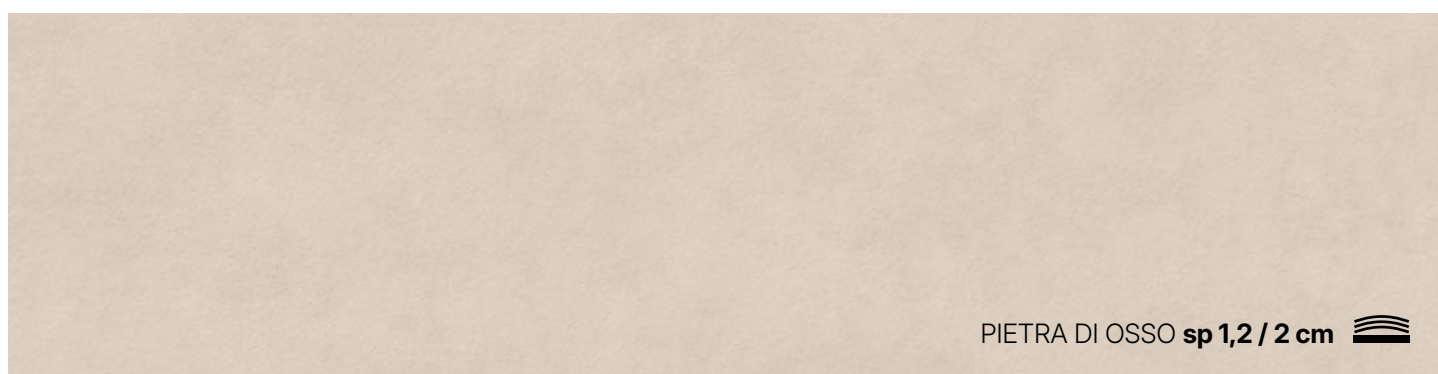

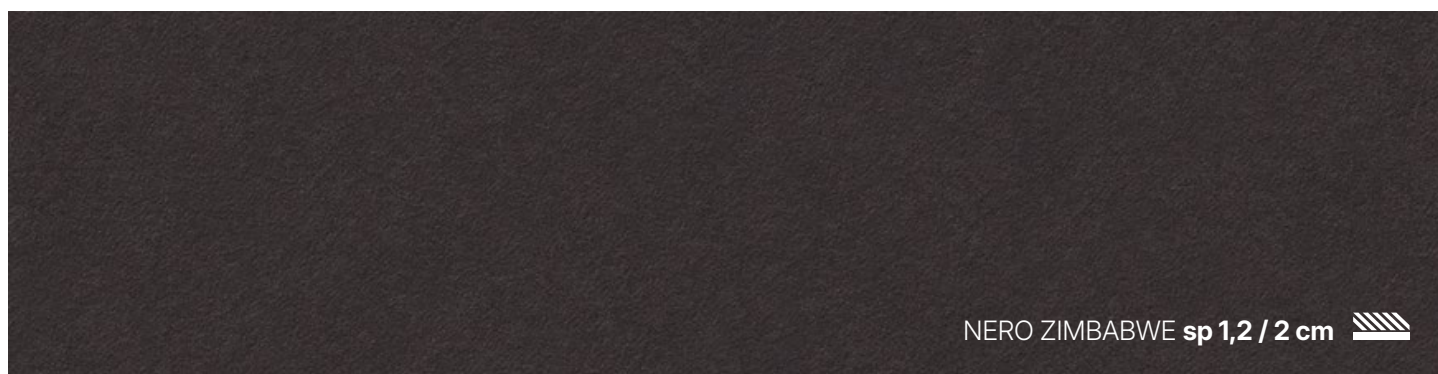

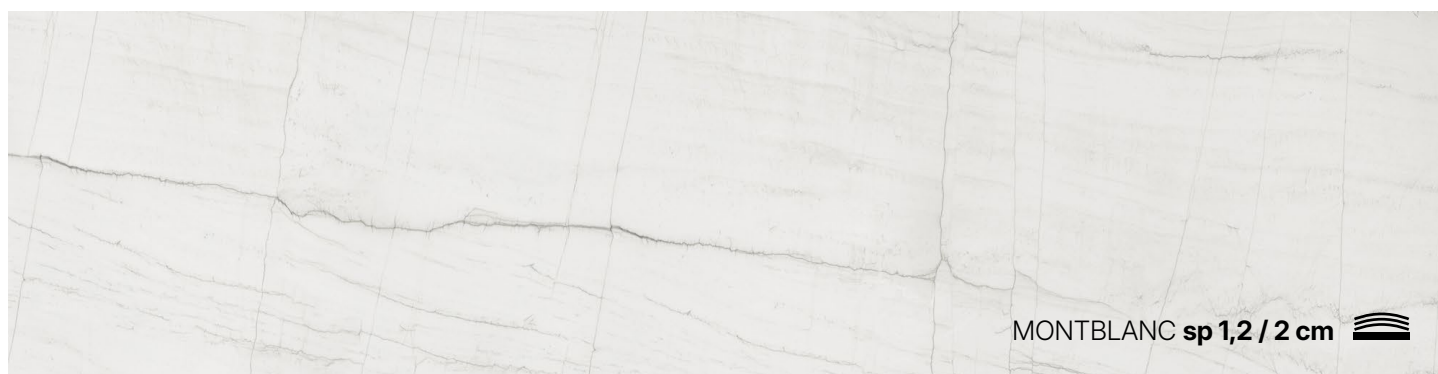

SINTERED STONE

Neolith è una superficie di estrema versatilità, non solo per il suo repertorio cromatico, ma anche per la sua offerta di finiture, spessori e formati. I suoi più di 50 modelli ispirati a marmo, legno, tessuto, pietra naturale ed elementi industriali, fanno di Neolith un prodotto idoneo a qualsiasi stile: dalle soluzioni più classiche a quelle più all'avanguardia.

Una delle caratteristiche distintive di Neolith è il suo spessore fine, con formati da 3, 6, 12 e 20 mm di spessore. La differenza di utilizzo varia a seconda dell'applicazione.
